Good day,

Attached the LED report for 3 Sept 2024.

Also I would like to make an apology for the meeting and will not be able to attend due to a conflict with another work meeting that I have in Roodepoort until 8pm and will not be in Fochville in time for our meeting.

Hope you find this in order.

Regards,

Plesier.

Als is dieselfde behalwe dat daar 'n issue is met water by die stadium.

Sorry maar ek wil julle nie aansteek met my maag nie.

Kind Regards / Vriendelike Groete

Dear Honourable Councillor

The email is noted and somehow unfortunate.

1. The implementation of the new Integrated Financial Management System (iFMS) has been with challenges ranging from legal issues and BIQ related issues regarding access to the master file and data, a matter that has been brought to Council a number of times and I am sure you are aware of.
2. The implementation of the iFMS has followed a thorough legally permissible process, guided by the both the Constitution, especially section 217 and the MFMA, especially its procurement regulations. The suggestion that I have incorporated is unfortunate and false, that is on record.
3. The Municipal Property Rates Act doesn't recognise a group of residents, neither does it contain a section on clubbing customers, it is based on an individual customers recognised as such, especially when the property is registered in the deeds office. Therefore, each customer is treated as a customer not a group as such.
4. The Office of the Accounting Officer has on a number of occasions informed the public and customers to approach the municipality, where there are discrepancies in customer's account, that process is ongoing and customers are being assisted as such. It would thus be advisable as expressed before that when customers pick up issues that they inform the municipality and the matter be treated as such.
5. The point around accountability for yourself is also noted and again very unfortunate and one will not respond to.

Lastly, honourable Councillor, please do refer customers to the Revenue Section at Finance in order to be assisted to fix their customer's statements where there are issues as such.

Hope the above is in order,

Regards,

MM

> Resident's water and electricity are being cutt off from the credit controll department due to faulty accounts resigned by a financial system that you incorporated. This financial information is incorrect as it does not contain ALL the data needed. You are milking paying residents who's account's have been paid. We will adress this issue and escalate to the point where you will be accountable for yourself and other department heads.

Subject: URGENT MEETING REQUESTED REGARDING WARD COMMITTEE REPORTS

To: <nbest@merafong.gov.za>

Good day Mayor Best

Could I kindly request an urgent meeting with you concerning requests from our Ward 14 Ward Committee regarding the distribution of our monthly section 80 reports.

Kind regards

Cllr. Lindy Maritz

"Our biggest complaint is that our municipality always complains that it does not have enough money, even for basic service delivery, but now they want to send all these people on an overseas trip. Another question is why so many politicians and extra officials must go along? Why not only send the officials who work with these matters? Another big issue is why the municipality must go out of the country for solar lights if there are many companies within South Africa who can do the same work."

Best way
your eyes

The municipality's main building in Houta Street in Carletonville will be empty since the delegation goes to Morocco. Even the staff there would be someone to stand in for the mayor if she is not around, will be flying off to the North African country.

From Merafika to Morocco

According to Merafika, the politicians and officials have to go on the trip to explore a partnership between the municipality and Capricorn Energy & Gas (Pty) Ltd. The E&G Tech Group and Agadir Solar Solutions in Morocco. This is to explore a plant that manufactures solar street lights that is owned by Agadir Solar Solutions in Agadir in Morocco.

The municipality says it does not only want to put up some of these solar lights around our area, but also wants to ask Agadir Solar Solutions to set up a manufacturing plant in Merafika. It further wants to see whether it can sign a twinning agreement with Agadir in Morocco and wants to sign a memorandum of understanding with the various companies.

It says that all the projects are part of its economic turn-around strategy called

economic sectors as well as identifying and attracting new economic sectors and investments.

Although the companies will pay the Merafika delegates' travel and accommodation costs, the municipality will pay a subsistence and travel allowance for all the delegates itself.

"Our biggest complaint is that our municipality always complains that it does not have enough money, even for basic service delivery, but now they want to send all these people on an overseas trip. Another question is why so many politicians and extra officials must go along? Why not only send the officials who work with these matters? Another big issue is why the municipality must go out of the country for solar lights if there are many companies within South Africa who can do the same work," says Carlos Rebelo, the leader of

Agadir Solar Solutions in Morocco.

various other opposition parties echoed these complaints.

Although the Herald asked the municipal spokesperson when the trip of more than 11 000 km to Agadir in Morocco will take place, no answers were forthcoming.

Among other questions, the Herald also asked what

complaints that it does not have enough money, even for basic service delivery, but now they want to send all these people on an overseas trip. Another question is why so many politicians and extra officials must go along? Why not only send the officials who work with these matters? Another big issue is why the municipality must go out of the country for solar lights if there are many companies within South Africa who can do the same work," says Carlos Rebelo, the leader of the DA which is the biggest opposition party in the council.

Representatives from

Today

Good day Manager Moyo.

The Ward Committee of Ward 14, Fochville kindly request that the stormwater drains be opened and cleared in Fochville in regards to the rainy season and possible flooding. Routine maintenance would be appreciated at the visibly blocked streets

Kind Regards
Cllr. Lindy Maritz

Hi Jerry, I got your number from Prof Eric. Can you please assist me? I am writing about waste management in your area. I came across this article. Please read it and let me know if the municipality is still using the equipment they received from the national government or if it currently needs to be put into use. Thank you so much! Really appreciate it. Regards Anne Barnes
